

21273020 Duo electrically adjustable toilet seat

The Duo electrically adjustable toilet seat gives people with reduced mobility the possibility to increase their independence. The variety of potential configurations of the seat makes it functional and ergonomic for residents and personnel.

Electrical height adjustment range is 250 mm (400-650 mm). Maximum height is 1460 mm. The petite design of the DUO is coupled with the power to lift up to a 400 kg load.

The seat is customizable with integrated support rails with antimicrobial elastomeric gripping surfaces.

- floor drainage
- height adjustment 250 mm (400-650 mm).
- height adjustment speed \approx 8mm/s
- withstands a load of 400 kg
- IP rating: IPX6
- ISO 17966
