

62012 Public basin

Public basins are made of durable and antimicrobial cast marble. The waste hole in the tapered end of the basin makes it a perfect fit for public bathrooms. The Public basin has fixed rails in front to support standing and ease approach. The angle of the front rim ensures that splashes stay inside the basin. The 1500 mm width provides a broad tabletop, with a capacity to add a wall-mounted cabinet below the tapered end. Wall brackets and fixed water trap are included with the basin. Mounting hardware sold separately. Manual and electronic height adjustments are available for the model. The basin can also be customized to include a wall-mounted cabinet to complement the waste hole. Right- and left-handed basins are available, classified by the direction of the tapered tail. The recommended mounting height is 800 mm.

Right-handed Public basin in grey granite, with waste hole and stainless steel handrail.

Product number: 62012SSAM

Product Information			
Width	1500 mm	Color	grey
Length	-	Rail color	stainless steel
Height	-	Material	cast marble
Depth	500 mm	Handedness	right
