

62015 Public basin

Public basins are made of durable and antimicrobial cast marble. The waste hole in the tapered end of the basin makes it a perfect fit for public bathrooms. The Public basin has fixed rails in front to support standing and ease approach. The angle of the front rim ensures that splashes stay inside the basin. Rails are available in different accent colours, to promote better spatial recognition: white (RAL 9016), grey (RAL 7037), red (RAL 3003) and stainless steel. The 1500 mm width provides a broad tabletop, with a capacity to add a wall-mounted cabinet below the tapered end.

Wall brackets and fixed water trap are included with the basin. Mounting hardware sold separately. Manual and electronic height adjustments are available for the model. The basin can also be customized to include a wall-mounted cabinet to complement the waste hole.

Right- and left-handed basins are available, classified by the direction of the tapered tail. The recommended mounting height is 800 mm.

Left-handed Public basin with a waste hole.

Product numbers:

- 62015WAM, white
- 62015GAM, with grey rail
- 62015RAM, with red rail
- 62015SSAM, stainless steel rail
