

62086 Sense Public basin

Gaius Sense Public basins are made of a durable and antimicrobial composite material. The basin is seamless, with fixed rails in front to support standing and ease approach. The angle of the front rim ensures that splashes stay inside the basin. Additional accent colour strips are available for the rails to promote better spatial recognition: grey (RAL 7037) or red (RAL 3003).

The basin design embodies the new European PMR standard, which requires 300 mm empty space below to allow for wheelchair access.

A white pop-up drain plug, fixed water trap, and mounting hardware are included with the basin. Right- and left-handed basins are available, classified by the direction of the tapered tail.

The 1400 mm width provides a broad table top, with capacity to add a wall-mounted cabinet below the tapered end. The Sense Public basin differs from Plus basin by the hole for waste.

Left-handed Sense Public basin

Product numbers:

- 62086WAM, all white
- 62086GAM, with grey accents
- 62086RAM, with red accents

Product Information			
Width	1400 mm	Color	white
Length	-	Rail color	-
