

622721 Sense Royal basin

Sense Royal basin is seamless with integrated support rails in front to support and ease approach with the wheelchair or standing. When using a wheelchair it's easy to come really close to the faucet and rest the elbows on the sides. The angle of the front rim ensures that splashes stay inside the basin. Additional accent colour strips are available for the rails to promote better spatial recognition: grey (RAL 7037) or red (RAL 3003). Sense Royal basins are made of durable and antimicrobial cast marble, also available as composite material (Sense Royal) version. Available also a version with tap situated not the middle of the bowl. The recommended mounting height is 800 mm. The basin complies with the EN 14688 standard.

Sense Royal basin without overflow

Product number:

- 622721WAM white
- 622721GAM grey accent
- 622721RAM red accent
