

21273113 Crank height adjustment system

The crank height adjustment system for Royal basins.

Allows smooth and easy customization of the basin height via a removable hand crank. The height adjustment range is 200 mm (recommended operating height of the basin is 700 mm when the height is adjusted to minimum).

The height adjustment rails, and plumbing are hidden behind the cover, which makes the system look elegant. All white metal parts are painted with antimicrobial paint.

To get a functional unit you need:

- a basin
- mounting hardware, product number: 6219
- drainpipe (fastener not included), product number: 13982
- water pipe and fasteners, joints for copper pipe, product number: 13970
- fastener and screw to drainpipe, product number: 13983
