

UpLift-tuolinostin UpLift seat assist

UpLift seat assist is powered by a hydro-pneumatic gas spring and uses no batteries or electricity and it is highly portable with a built-in carry handle. Uplift provides a gentle, safe lift without pushing forward. It activates automatically as the user stands, lifting up to 70% of weight. Great for use at home or away, the waterproof cover and memory foam cushion ensure years of comfort.

Adjustable for different weights from 88 to 159 kg.
