

21273025 Duo manually adjustable toilet seat

The Duo crank-adjustable toilet seat height adjustment gives people with reduced mobility the possibility to increase their independence. The variety of potential configurations of the seat makes it functional and ergonomic for residents and personnel. The height can be adjusted from both sides of the seat.

Duo has a petite design, but its sturdy structure allows up to 400 kg of load in motion.

- floor drainage
- height adjustment 220 mm (400-620 mm).
- max 400 kg load
- IP rating: IPX6
