

10111 Stay 11 support rail

Stay support rails are circular to maximize the area suitable for gripping. These modern support rails have a white antimicrobial frame, with an elastomeric gripping surface. Additional hardware is aluminum. Rails are equipped with hinges that aid with folding, and keeping the rails in an upright position. Stay support rails include fixed and height adjustable models, with varying forms of mounting. The rails are also customizable via a chest support bar, toilet paper dispenser, and bidee-retainer. sold separately. Load tested to 150 kg.

Product numbers:

- 10111GAM White, with grey coating
