

9555 LED light

The Gaius LED light is designed as a modern Nordic and functional luminaire with quality and technique that meets the demands of the bathroom. In addition to the bathrooms, it is ideal for use in sanitary rooms, toilet and cloakroom. The high-quality optics of the luminaires offer excellent glare-free light that opens in two directions.

Fitted to a mirror cabinet or a mirror, it will provide a pleasant soft light to the face and the closest surroundings. The luminaire with a steel housing is designed and manufactured in Finland according to the long service life and the sustainable development goal, thus its light sources and ballast are replaceable.

Gaius LED light is available with four versions, of different lengths: 400, 500, 600 and 900 mm.
