

KB301-01 Baby changing station

Surface-mounted vertical baby changing station is constructed of polypropylene and features a unibody steel chassis for superior strength.

Thoughtful patron amenities enhance the end-user experience, and include Microban® product protection, a redesigned liner dispenser, a convenient external solid stainless steel rod bag hook with satin finish and the Koala brand mark that communicates comfort to families and the promise of a thoughtful accommodation.

The dual liner cavity has an internal spring tab that pushes liners forward while only allowing single liner dispensing. Each cavity holds 25 liners and locking mechanism minimizes operator refills and discourages potential vandalism.

The external stainless steel bag hook is for safely storing a diaper bag off the floor and keeping the diaper bag in close proximity to the caregiver for ease of use.

Bed surface exclusively contains Microban® antimicrobial product protection that reduces odor-causing bacteria and keeps the bed surface cleaner between cleanings. Concealed pneumatic cylinder provides controlled, slow opening and closing of the changing station bed.

Technical specifications

This Baby Changing Station has been tested to support 200 lbs with minimal deflection.

Please note: This product is designed for infants only, up to 3.5 years of age and weighing less than 50 lbs.

ASTM and EN compliant. Meets ADA requirements when mounted properly.

- Unit Dimensions: 20 3/4" W x 35 7/8" H (527.5 mm x 911 mm)
- Depth (closed): 4" (101 mm)
- Extension (open): 36 5/8" (931 mm)
- Shipping Weight: 32 lbs
